

Payment Options Magento2 Integration guide

Payment Options provides a seamless payment experience for your customers and an easy integration process for the developers. Payment Options works by creating Payment Request and then the customers accepting the Payment Request.

INSTALL EXTENSION

1. Download the latest Source code zip file from the Payment Options GitHub
(Use the download Link : <https://github.com/paymentoptions/magento2-extension>)
2. Extract the magento2-extension.zip.
3. Place the extracted files into app/code/Agtech/Paymentoptions/ folder under Magento root path
4. Check your Magento Mode:
Run "`php bin/magento deploy:mode:show`" to find your mode
If your Magento mode is "production", please run the below commands:
 - I. `php bin/magento cache:clean`
 - II. `php bin/magento cache:flush`
 - III. `php bin/magento setup:upgrade`
 - IV. `php bin/magento setup:di:compile`
 - V. `php bin/magento setup:static-content:deploy`

If your Magento mode is "default" (or) "developer", please run the below commands:

- I. `php bin/magento setup:upgrade`
- II. `php bin/magento setup:di:compile`
- III. `php bin/magento setup:static-content:deploy -f`

CONFIGURE EXTENSION

1. Log in to your Magento Store Backend
2. Choose Stores on the Admin sidebar to the left. Now go to Settings > Configuration.
3. In the Configuration page, click on Sales on the left and choose Payment Methods
4. On the Payment Methods page, navigate to “Payment Options” Payment Section.
 - I. Enabled - select yes to enable the “Payment Options” Payment Method
 - II. Mode - select sandbox or live mode
 - III. Title - This title will show under the payment methods section on the checkout page of Magento
 - IV. Access Token - Enter Your <Secret Key> received from Payment Options.
 - V. Merchant ID - Enter Your <Merchant ID> received from Payment Options.
 - VI. Debug - select yes to enable the debug, this will log Payment Options API calls under var/log/debug.log file
 - VII. Countries - Allow all countries or select specific countries to access this payment method
5. Click Save Config.
6. Refresh Magento Cache.

FRONT VIEW

1. It will show on the checkout page under the payment Methods section
2. Select “Payment Options” payment option: It will show like below:

The screenshot shows the LUMA checkout interface. At the top, the LUMA logo is displayed. Below it, a progress bar indicates two steps: 'Shipping' (completed, marked with a checkmark) and 'Review & Payments' (current step, marked with a checkmark). The main section is titled 'Payment Method' and contains the text 'Card payment power by Payment Options'. A checkbox labeled 'My billing and shipping address are the same' is checked. Below this, the address is displayed: '113', 'Singapore, Singapore', and a masked postal code. A blue 'Place Order' button is located at the bottom right.

3. Click on “Place Order” Button: It will redirect you on payment page

The screenshot shows the 'PAYMENT OPTIONS' payment page. The header features the 'PAYMENT OPTIONS' logo. Below it, the title 'Your Payment Details' is displayed, followed by the 'VISA' logo. The form contains several input fields: 'Card Number', 'Card Expiry Date (MM/YY)', 'CVV2', 'S\$ 105.00', 'Promo Code', 'Name on Card', 'Card Holder Email', 'FdSFvzPmlA09AO4htVxO', and a dropdown menu labeled '--Select Country--'. At the bottom, there are two buttons: a yellow 'PAY NOW' button and a grey 'CANCEL' button.

4. Make payment using any of the options provided above.
5. After making a successful payment, it will redirect to the success page.

Payment Successful

Thank you, your payment has been processed!
